

Installing UiPath Studio Academic Alliance Edition

About the UiPath Studio Academic Alliance Edition 2020.10

UiPath Learning offers its partner organizations the opportunity to use the UiPath Studio software at no charge through a dedicated Learning license, which is free to students and educators alike, for teaching, learning and research.

- The license entitles the user to access UiPath Studio and UiPath StudioX, the automation development software application, along with the UiPath Development Robot to allow for testing and execution of the automations.
- The Academic Alliance Edition of UiPath Studio is a locked version of the software aligned to the current Studio course resources provided by the UiPath Academic Alliance Partners and UiPath Learning Partners. Moreover, the current UiPath Certified Professional exams are based on this version.
- One license key allows for the activation of the UiPath Studio software on 2 different machines.
- The license type granted is Named User, to be applied solely to User Mode installs. Instructions for activating the Academic Alliance Edition license will be provided accordingly below.
- Each Academic Alliance Edition license expires after 365 days upon its activation, and it is subject to being extended as long as the Academic Alliance partnership is maintained.

Using the Academic Alliance Edition ensures that you have the appropriate software version installed which aligns with the curricula and hands-on lab materials. This will avoid any disruptions to your learning experience. This will also ensure that projects can be shared between students and educators without software version differences.

If you have installed UiPath Studio Community Edition previously, please uninstall it first before installing the UiPath Studio Academic Alliance Edition. Failure to do this may result in both editions of the software not working correctly.

If you have previous versions of the Academic Alliance Edition (19.4 or 19.10), please install the new one above it (i.e. no need to uninstall).

Download and Install UiPath Studio Academic Alliance Edition

1. To download your free copy of the UiPath Studio software, open the URL: <https://www.uipath.com/landing/academic-studio-download>. It is a private form designated only for the students and educators who are affiliated to the UiPath Academic Alliance & UiPath Learning Partner institutions.
2. Fill in your contact details and choose the institution you belong to.

START YOUR AUTOMATION JOURNEY

Hello Student,

We're thrilled you want to explore Robotic Process Automation (RPA). We invite you to install the UiPath Academic Alliance Edition software by following the steps below.

Download UiPath Academic Alliance Edition

Step 1. Download the newest software version: [UiPath Academic Alliance Studio 20.10](#) (it includes Studio and StudioX)*
**should you need the older 19.10 version, please download it from [here](#).*

Step 2. **Important** - Follow the step-by-step instructions thoroughly: [UiPath Academic Alliance Edition Installation Guide](#)

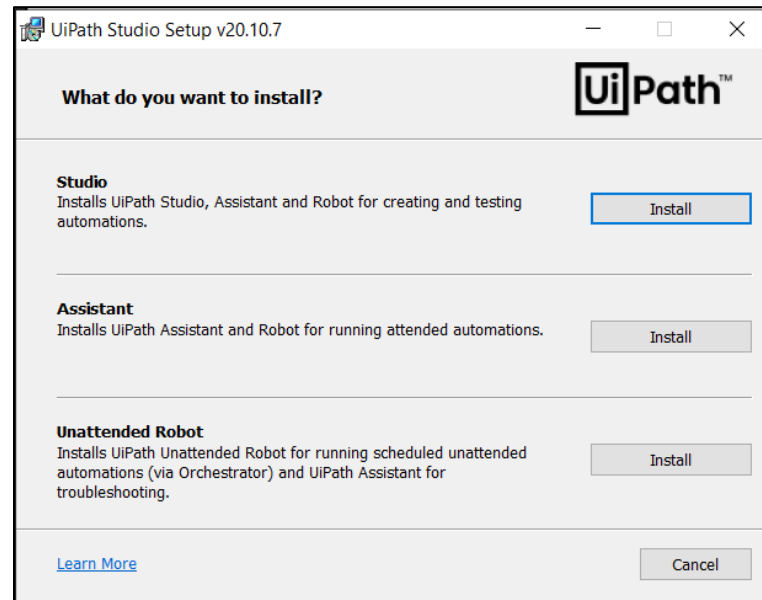

Step 3. Install and activate the product with your unique license code: 0101-0101-0101-0101

We look forward to continuing to support you in your RPA journey.
UiPath Academic Alliance

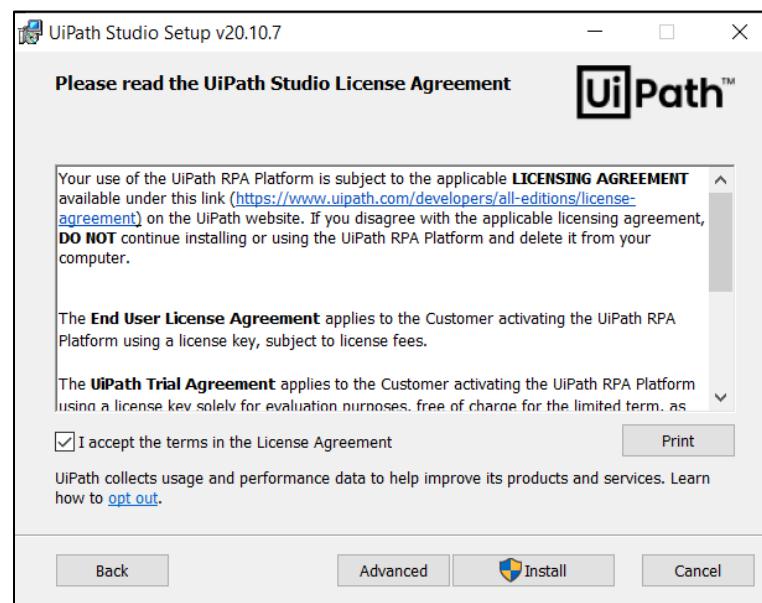

5. The file will begin downloading. Click to open the **UiPathStudio.msi** once it is downloaded.

6. Click on the *Install* button right beside *Studio*.

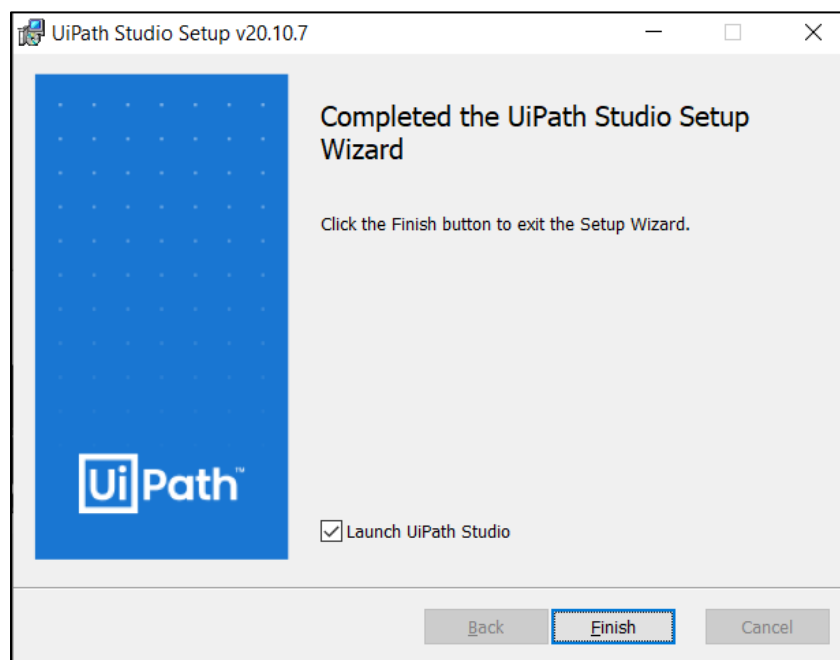

7. Accept the terms in the License Agreement and click on *Install*.

8. The software will begin its installation.

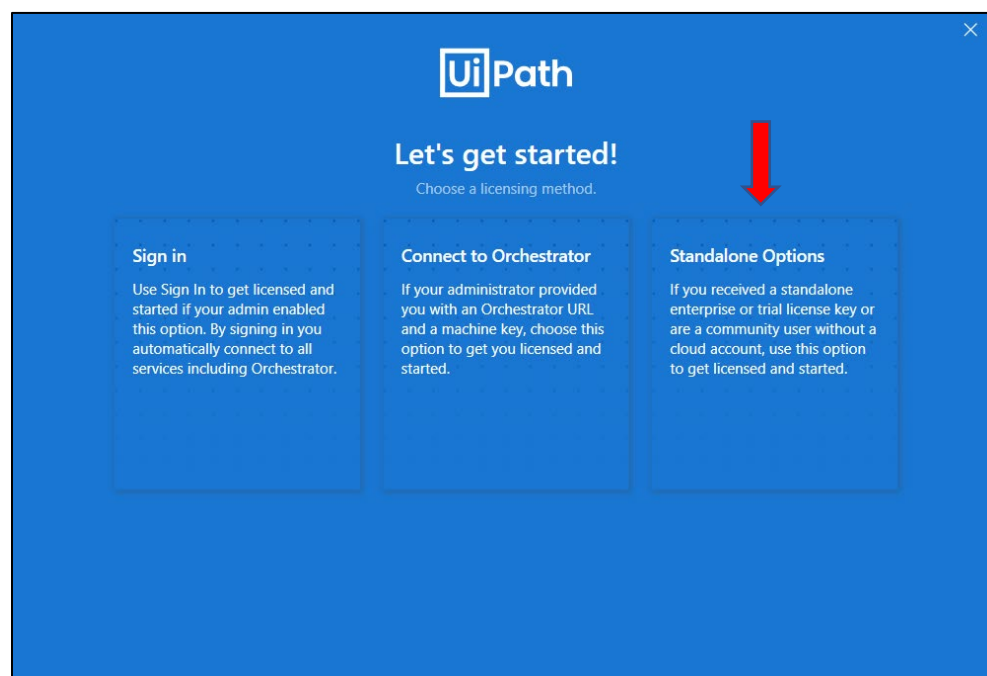

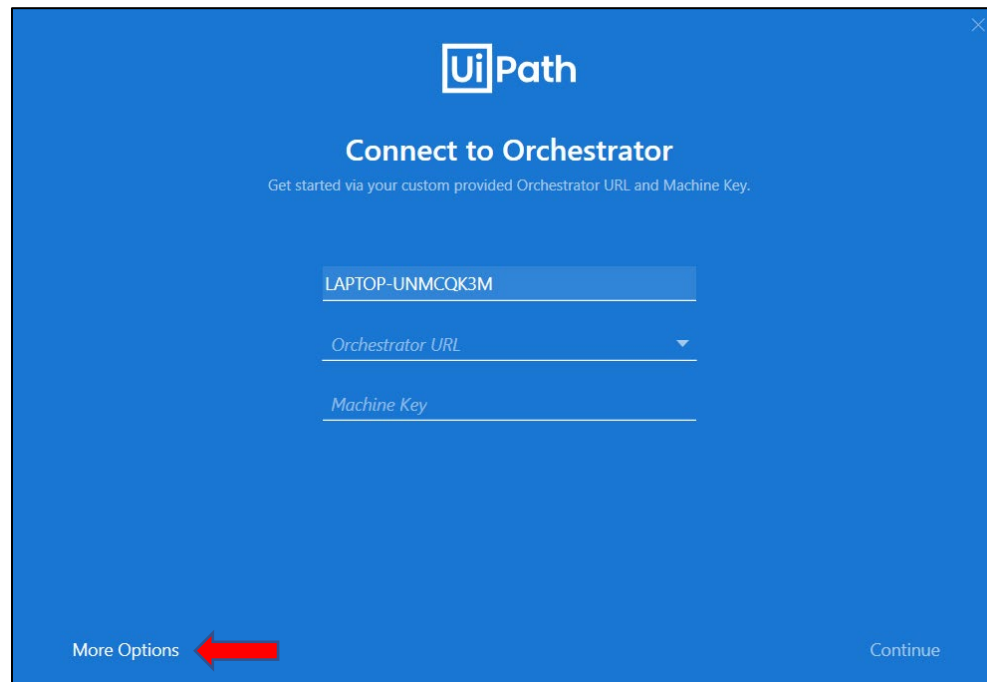

9. Click **Finish**.

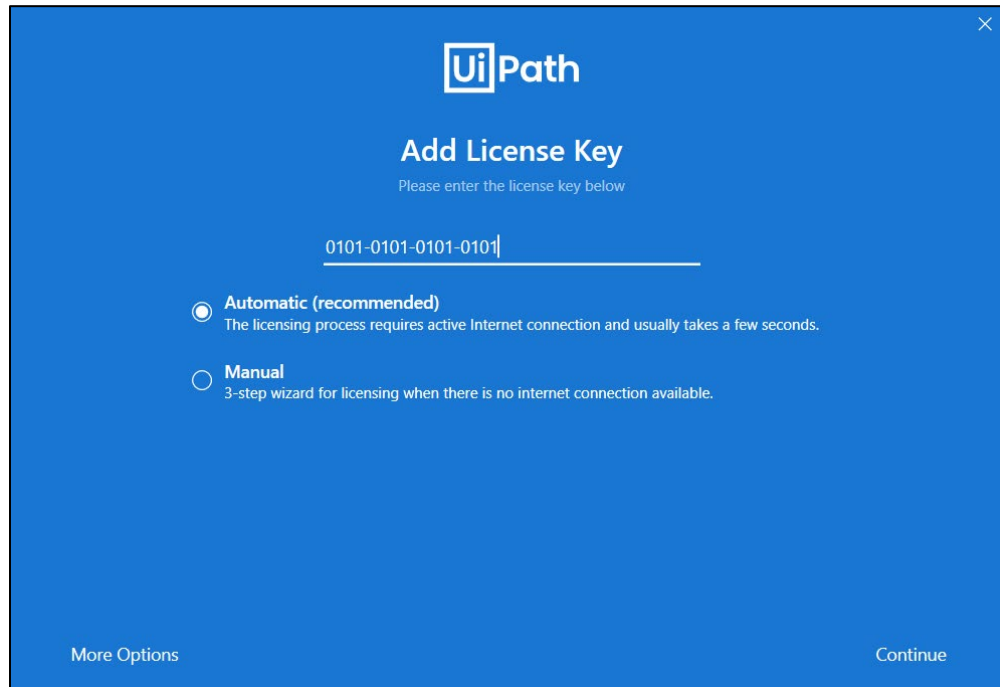

If “Launch UiPath Studio” was checked, then UiPath Studio is launched. If not, you can search in your Windows explorer for UiPath Studio to open it.

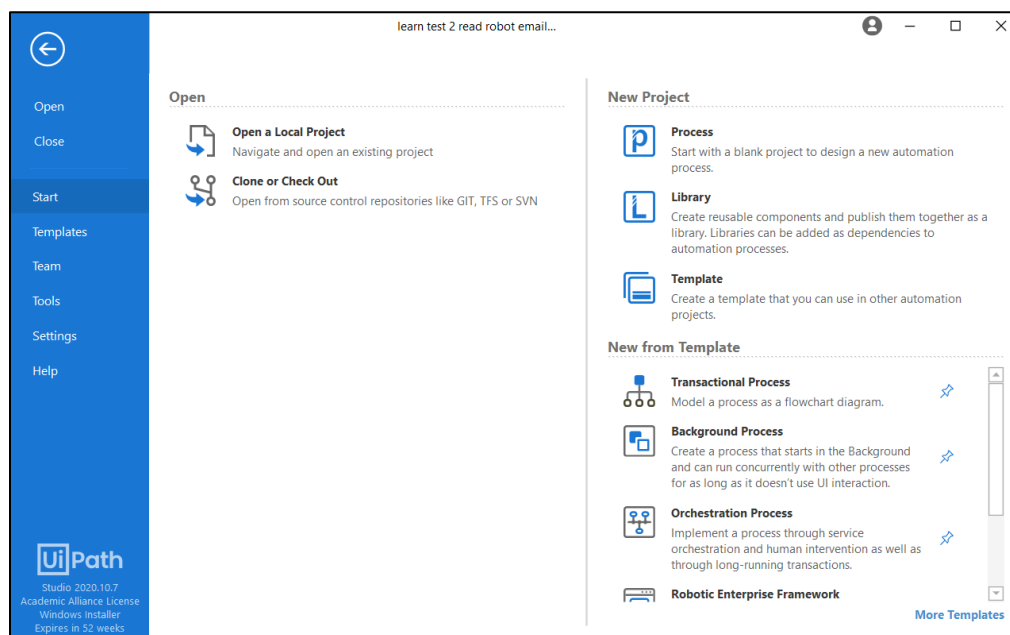

10. In the “Welcome to UiPath Studio” window, click on More Options and then Standalone Options to activate your dedicated Academic Alliance Edition of Studio with your license key.

11. The UiPath Registration window is displayed.
 - a. Enter the **License Key** you received by email, including the dashes.
 - b. Select **Automatic** activation, but ensure you have internet connection.
 - c. Click **Continue**. Your UiPath license is now activated.

12. Now, you can start using UiPath Studio and StudioX software to create automation workflows.

13. You can switch between the two profiles (Studio or StudioX) at any time by going to Settings – License and Profile – View or Change Profile. Choose whether you want to use UiPath Studio or StudioX.
